

6/15/2010

Eco AOC out by 6/25/10 - once signed - VAO paused
Inspection for Tanks then AOC out by 7/1/10

PRP - EPA Call

Time Critical (Tanks)

NTC - Cap + Hotspot

↳ need EE/CA

- EPA send AOC for EE/CA; once complete, action memo developed based on findings
- NOD was sent for BERPA → due date for docs is 6/25
EPA's goal is to send AOC for ~~BERPA~~ EE/CA and sign and then do a stay for VAO
- Tank removal AOC is delayed
- 3rd AOC cover NTC

Question from Jim - PRP's are sending # a concrete NOD, timing is off; why can't EPA just stay now?
- AOC already "negotiated"

Barbara's Response → we are under VAO, dates important
